

## B-10

### BOOKSHELF SPEAKER WITH CONTEMPORARY FINISH

The Klipsch B-10 works perfectly as a main speaker or as a side or rear surround speaker in a Home Theater system, and is excellent for use in small to medium sized rooms other speakers won't fit into

### TRACTRIX® HORN

Proprietary Klipsch technology with a refined 90° x 90° dispersion pattern expands the prime listening area and produces both wide dynamics and an open soundstage uncharacteristic for a speaker this size

### ALUMINUM DIAPHRAGM COMPRESSION DRIVER (TWEETER)

The exclusive Klipsch Tractrix® Horn mated to the .75 inch, solid-formed metallic, high-frequency diaphragm works in conjunction with a precise phasing plug at the horn throat to create a highly efficient driver with unmatched clarity and lack of distortion

### IMG WOOFER

A woofer with a light, yet very stiff diaphragm matched with a large motor structure for excellent low-frequency response

### REAR-FIRING PORT

Perfectly matched to the cabinet and woofer and precisely flared to minimize turbulence for tighter bass reproduction

### HIGH QUALITY, HIGH DEFINITION NETWORK

Increases overall speaker efficiency while reducing distortion

### FLUSH-MOUNTED HORN FASCIA AND WOOFER

Reduces front-baffle diffraction for better imaging, increased dynamics and improved sound accuracy

### 5-WAY BINDING POSTS

Provides maximum connection flexibility

### SPECIFICATIONS

### B-10

Frequency Response	64Hz-23KHz ± 3dB
Power Handling	50W RMS / 200W Peak
Sensitivity	90dB @ 2.83V / 1m
Nominal Impedance	8 ohms compatible
Crossover Frequency	2250Hz
High Frequency Drivers	.75" (1.9cm) Aluminum diaphragm compression driver
Low Frequency Drivers	4" (10.2cm) IMG woofer
Inputs	Single binding posts
Enclosure Type	Bass-reflex via rear-firing port
Height	9.75" (91.4cm) with feet
Width	5.88" (14.9cm)
Depth	7.5" (19.1cm) with grill
Weight	7.1lbs (3.2kg)
Finish	Black Ash vinyl
Built From	2011
