Produces crystal-clear high frequencies

LINEAR TRAVEL SUSPENSION

Minimizes distortion

IMG WOOFERS

Create tight musical bass

DUAL BINDING POSTS

Allow for the bi-wiring or bi-amping of speaker

KLIPSCH BELIEVES FOUR PRINCIPLES TO BE THE FOUNDATION FOR GREAT SOUND:

- **HIGH EFFICIENCY:** Every Klipsch speaker is horn-loaded because the horn shape is perfect for accurate and dynamic sound transmission. Greater efficiency means lower distortion which means maximum realism.
- **DYNAMIC RANGE:** Klipsch horn technology reproduces the softest sounds with remarkable clarity and detail and the loudest sounds with no harshness or distortion. That's what's known as the best of both worlds.
- **CONTROLLED DIRECTIVITY:** Unique Klipsch horn technology means speakers that more accurately direct sound. The result is a more lifelike soundstage and way more "Whoa - Did you hear that?"
- **FLAT FREQUENCY RESPONSE:** We believe in delivering exactly the sound artists intend. Hence, Klipsch's stunningly accurate speakers - with no unnatural highs, mids or lows.

SPECIFICATIONS		C-20
Frequency Response		82Hz-23KHz ± 3dB
Power Handling		100W RMS / 400W Peak
Sensitivity		95.5dB @ 2.83V / 1m
Nominal Impedance		8 ohms compatible
Crossover Frequency		2150Hz
