

## 6.5" Two-Way In-Ceiling Loudspeaker

# R-2650-CSM

Easy to integrate into almost any lifestyle, the R-2650-CSM summed mono speaker brings powerful and dynamic Klipsch sound to challenging home installation locations such as hallways, bathrooms, closets and areas that can't accommodate multiple speakers.

Upholding the same high-performance standards as all Klipsch products, this reasonably priced speaker employs a 6.5-inch gray polymer woofer cone and dual 1-inch soft/silk dome tweeters so that it can play both left and right stereo signals with total precision and clarity.

Because it nicely blends in with its surroundings and offers installation flexibility, this amazing performer is sure to be a homeowner and residential contractor favorite. By incorporating a proprietary two-screw mounting solution, all it takes is one trip up the ladder to get this speaker rockin'!

Available in a white finish, the R-2650-CSM can be paired with one of Klipsch's new installation kits (sold separately). Each of these revolutionary kit designs allow for increased mounting flexibility and incorporate a mud ring, wire tie and universal metal mesh wing for multi-position placement and a color-coded bracket for easy speaker size identification.

- Single speaker accepts two-channel input
- Separate tweeters for each channel to maintain stereo effect
- Weatherized components
- Time saving two-screw mounting method
- Paintable to match ceiling
