

## 8" Two-Way In-Ceiling Loudspeaker

# RCR-5

Versatile and easy to install, the RCR-5's astonishing big-speaker sound is everything you probably wouldn't expect from an in-ceiling design. Sophisticated engineering and exceptional performance make this Reference Series model the logical choice where smooth, clear highs, solid bass, and total reliability are as important as stealth. RCR-5s work extremely well in high-end distributed-music systems and as surround speakers in home-theater setups — any application where you need loudspeakers to be heard but not seen. And they blend perfectly with the smaller RCR-3s in situations that demand a mix of sizes.

The RCR-5's 8-inch Cerametallic™ cone woofer, built in a cast-polymer frame with an extraordinarily robust motor structure, delivers a rich, full bottom end that instantly sets it apart from conventional ceiling speakers. Its coaxially mounted titanium dome compression drive tweeter is mated to a Klipsch Tractrix® Horn that can be swiveled to focus sound where needed, which is a great advantage when the speaker must be mounted in a less-than-ideal location. A tweeter attenuation switch gives an added measure of control in tailoring the speaker's output to the acoustics of its environment.

The RCR-5's white frame and grille can be painted to match the ceiling. Premium components and superior construction ensure long, trouble-free service.

- High sensitivity and power handling
- Durable cast-polymer frame with shallow 5" mounting depth
- Swiveling Tractrix Horn compression driver tweeter
- Adjustable treble output
- Paintable to blend with ceiling
- Rugged ABS frame and rustproof powder-coated aluminum grille

## SPECIFICATIONS

BANDWIDTH	39Hz-20kHz ± 3dB
SENSITIVITY	95dB @ 2.83 volts/1 meter
NOMINAL IMPEDANCE	8 ohms compatible
CROSSOVER FREQUENCY	2100Hz
POWER HANDLING	50 watts (200 watts peak)
ENCLOSURE TYPE	Infinite baffle system
DRIVE COMPONENTS	Two-way system using one 1" (2.5cm) titanium dome compression driver tweeter with a swiveling 100° symmetrical Tractrix Horn and one 8" (20.3cm) Cerametallic cone woofer
WIRE GAUGE ACCOMMODATED	12
WEIGHT	5 lbs. (2.3kg)
DIAMETER	11" (27.9cm)
MOUNTING DEPTH	5" (12.7cm)
CUTOUT DIMENSIONS	9.8" (24.9cm)
FINISH	White
INSTALLATION KIT	R-800-IK
