

## RW-12ii

Capturing all the sonic excitement of low-frequency effects, the Reference Series RW-12ii delivers rock-solid performances. With its class-leading technology and superior design, this hard-hitter perfectly rounds out a home theater or two-channel stereo music system.

The RW-12ii shakes things up by employing a 12-inch front-firing fiber composite woofer and a 275-watt RMS amplifier. Corner Port Technology allows the subwoofer's port tube to be as long as possible without bending, minimizing turbulence that can cause port noise and distortion. It also allows the enclosure to be tuned to a lower frequency than would otherwise be possible to create deeper bass from a smaller cabinet. Another important element is a corner-shaped flange at the port's internal opening, which amplifies the benefits of a longer port.

### SPECIFICATIONS

Frequency Response	29-120Hz +/-3dB
Maximum Acoustic Output	111dB @ 30Hz 1/8 space, 1m
Amplifier	BASH® digital hybrid
Amplifier Power	FTC Rated Power: 275 watts continuous @ <2% THD, Dynamic Power: 550 watts
Drive Components	12"(30.48cm) Fiber composite cone, front-firing woofer
Enclosure Type	Bass-reflex via front-firing corner port
Inputs	WA-2 Wireless Port, L/R line-level RCA jacks, L/R high level speaker binding posts
Height	19" (48.3cm)
Width	14.6" (37.1cm)
Depth	21" (53.3cm)
Weight	49 lbs. (22.3kg)
Finishes	Black vinyl
Features	WA-2 Wireless Port, Gain, Lowpass, Phase, Auto Power
Phase	0 / 180 switchable
Voltage	110/120 VAC 60Hz
Export Voltage	230 VAC 50/60Hz
