

## 6.5" Two-Way All-Weather Loudspeaker

# SA-2

Klipsch all-weather speakers take outdoor audio one step beyond. Every model is painstakingly engineered, using the latest materials and technology to deliver outstanding performance, reliability, and value.

Compact, durable, and (dare we say) stylish, the SA-2 fits perfectly almost anywhere you need good sound, from a back yard or patio to a storefront to a boat deck. Outdoor seating areas at restaurants, bars, and pools represent another natural application. Its high output capability makes it a particularly good choice for covering large, open areas. And because it is very efficient, paintable, and easily wall- or ceiling-mounted, the SA-2 makes a great indoor utility speaker, for homes, schools, and meeting rooms of all kinds. It can even be used as a surround speaker in a home theater system.

Built on a rigid, cast-polymer frame, the SA-2's 6.5-inch IMG-cone woofer provides rich, clean bass. Its 1-inch titanium dome compression driver tweeter is mated to a 5-inch square 90° x 60° Klipsch Tractrix® Horn that increases efficiency and controls the sound radiation pattern for maximum clarity. Available in black or white, the speaker has a paintable UV-resistant ABS enclosure with rustproof aluminum grille and is supplied with a C-style, powder-coated aluminum mounting bracket. Stainless steel mounting hardware allows easy adjustment or removal and ensures long, trouble-free service. The SA-2's 8-ohm impedance is compatible with all amplifiers.

- Very high sensitivity and power handling
- Durable, UV-resistant ABS enclosure with rustproof aluminum grille
- Tractrix Horn titanium dome compression driver tweeter for clean, clear highs
- Supplied with C-style mounting bracket and stainless steel hardware
- Cabinet, grille, and bracket paintable to match surroundings

### S P E C I F I C A T I O N S

BANDWIDTH	58Hz-20kHz ± 3dB
SENSITIVITY	93dB @ 2.83 volts/1 meter
NOMINAL IMPEDANCE	8 ohms compatible
CROSSOVER FREQUENCY	2000Hz
POWER HANDLING	85 watts (340 watts peak)
ENCLOSURE TYPE	Bass-reflex via dual front-firing ports
DRIVE COMPONENTS	Two-way system using one 1" (2.5cm) titanium diaphragm compression driver with a 90° x 60° Tractrix Horn and one 6.5" (16.5cm) IMG woofer
