As the "smallest" floorstanding loudspeaker in our high-end luxury Palladium® Series, the P-37F features the flagship P-39F’s technology and gallery-like appearance in a slightly more compact, but equally stunning package.

The P-37F’s carbon-infused, thermoset composite dual-horn configuration is unique to the Palladium family. It consists of a proprietary tweeter design, combining a chambered phase plug and Tractrix® Horn for extended high-frequency response; a second 90º by 60º acoustically damped Tractrix Horn is coupled to the midrange driver, resulting in precise performances.

The three low-frequency drivers employ 7" hybrid cone woofers, powered by a unique three-part neodymium magnet structure with dual stabilizing rings. Three ports on the rear of the speaker enhance low-distortion bass response. Each woofer’s voice coil responds accurately to the smallest signal modulation, yet can also handle the high power of the most demanding soundtracks.

Designed with an eye toward home interior and furniture designs, the P-37F has a signature style that blends classic Klipsch audio and a clean, contemporary look. Its unique enclosure hints at the power inside, while maintaining a high degree of beauty. Next to its shape, the most striking visual statement is the zebra-grain Linia veneer available in natural, merlot or espresso. The horizontal linear grain and absence of visible fasteners further add to its appeal.

**SPECIFICATIONS**

- **FREQUENCY RESPONSE**
  - 43Hz-24kHz +/-3dB
- **LOW FREQUENCY EXTENSION**
  - 31Hz
- **HIGH FREQUENCY EXTENSION**
  - 30kHz
- **POWER HANDLING**
  - 275W continuous / 1100W peak
- **RECOMMENDED AMPLIFIER POWER**
  - 50 - 600W
- **SENSITIVITY**
  - 96dB @ 2.83V / 1m
- **NOMINAL IMPEDANCE**
  - 4 ohms
- **MID-FREQUENCY CROSSOVER**
  - 550Hz
- **HIGH FREQUENCY CROSSOVER**
  - 3400Hz
- **MAXIMUM ACOUSTIC OUTPUT**
  - 120dB (2 speakers in-room)
- **HIGH FREQUENCY DRIVER**
  - 0.75" (1.9cm) titanium diaphragm compression driver mated to 90º x 60º Tractrix® Horn
- **MID-FREQUENCY DRIVER**
  - 4.5" (11.4cm) aluminum diaphragm compression driver mated to 90º x 60º Tractrix® Horn
- **LOW FREQUENCY DRIVERS**
  - Three 7" (17.8cm) high-output, aluminum / Rohacell®/ woven synthetic fiber hybrid cone woofers
- **ENCLOSURE MATERIAL**
  - Constrained layer MDF (medium density fiberboard)
- **ENCLOSURE TYPE**
  - Bass-reflex via triple rear-firing ports
- **HEIGHT**
  - 46.5" (118.1cm)
- **WIDTH**
  - 19.75" (50.2cm) (12" / 30.5cm at the base)
- **DEPTH**
  - 19.5" (49.5cm)
- **WEIGHT**
  - 98 lbs (44.5kg)
- **FINISHES**
  - Zebra-grain Linia veneer in natural, merlot or espresso stain
